

## Sonny Moyers

REALTOR & Broker  
Commercial Real Estate Specialist  
Ebby Honor Roll - 2003  
MS - Psychology & Organizational Theory  
BS - Management & Communications

***Nick and Jaime Coleman were really excited!*** They were finishing up at Chiropractic school, and were looking forward to establishing a new practice. Their goal was to open a chiropractic clinic in North Plano or Frisco. They had one problem that they were not sure how to deal with. Since they were quite young, and just graduating from Chiropractic school, they could not find a Commercial Real Estate Broker that would take them seriously. They only needed about 2000 square feet of space and few Brokers would even return their phone calls.

They went on the Internet and found **Sonny Moyers of Ebby Halliday REALTORS**. From the first time they talked, they realized that Sonny was different from the other Brokers that they had talked with. He explained that he works with Clients with a long-term perspective. He took the time to understand their needs and listened to them, believing that they were real and serious about their futures.

### Dr. Nick and Dr. Jaime write:

“When we first met with you to discuss our commercial needs, you treated us with pure professionalism and kindness. We were brand new to the Commercial Real Estate world and you guided us giving us the knowledge that we needed to make an informed decision. Although, we were a start-up business you did not have any hesitations about taking us on board. You found out exactly how we envisioned our future Chiropractic Clinic and led us to our goal. We truly feel that you treated us like part of your family. We have been truly blessed to have not only found the most experienced and genuine Commercial Real Estate Agent in North Dallas, but to have **also found someone who truly cares about his clients and their needs.**”

“I could tell from the very beginning that these two young professionals were committed to hard work and had a vision about their future. I invested more time and more effort in them because they were so positive and so dedicated to their goals, I couldn't resist believing in them. I know they will be successful and have no doubt that we will work together many times in the coming years. I have no doubt that they will open their second clinic within five years!” says Sonny.

PS— Sonny was right. In January Dr. Nick and Dr. Jaime Coleman will move into their new home that Sonny and his Group helped them find. They are off to a great start and their Landlord is excited to be a part of their growth and development.

**We listen to what you are  
saying! We pay attention to  
your goals and objectives...**
